 Bandelero (A8013)  
 Clear Bag (GS402)  
 Meter Medium (GS301)

**MULTI FORMAT 1217**

The Multi Format 1217 fits within the new airline carry on restrictions. You will find this case ideal to carry a modest medium format system and/or 35mm or Digital camera set up. It really is easy to mix and match between the two formats.

If you are good at packing you can trim your dividers down and make a shelf to carry your computer on top of lenses and bodies laying flat. Special relationship 101. At least it can all fit within one case. It won't be light, just don't tell the stewardess.

It comes with a special "Z Pocket" design that allows the new Multi Z Pocket to be attached. Another addition to this case is two nifty stash pockets on the inside lid. Great for instruction manuals, extra flash cards, a pocket reader, fire wire cables and some CD's. Maybe a place for the iPod.
