**MULTI FORMAT 1623**

An airline checking standard. Great for lights, small stands, soft boxes and accessories. A complete location lighting kit can be assembled in this case. Let your imagination be the guide. Great for Elinchrom, Dynalite, Profoto, Arri, and a host of others. Makes no difference if you are using strobes, tungsten or HMI.

It can handle them all with ease. The customizeable divider system allows you to mix and match fixture sizes to suit your style. Carry a set of head extensions, grids, barndoors and gels, boxes, umbrellas and small reflectors in style
